

**PRESS RELEASE**

**FOR IMMEDIATE RELEASE**

## **ARDEN SOFTWARE and CAPE Systems Announce New Development Relationship**

**South Plainfield, New Jersey (November 27, 2006) – CAPE Systems Group, Inc. (OTCBB:CYSG)**, a leading provider of software technology for packaging design, pallet optimization, RFID Asset Tracking, inventory and warehouse management, supply chain execution and order fulfilment, and **ARDEN SOFTWARE**, a leading provider of packaging design solutions, today jointly announced that they are establishing a strategic development relationship to deliver enhanced solutions to customers using **CAPE's** pallet optimization software within **ARDEN SOFTWARE's** new Design Workflow Management system, **WEBcnx**, and the Impact range of CAD software.

The rapidly emerging needs of global packaging producers will be a particular focus.

Chris Rogers, General Manager of **ARDEN SOFTWARE** stated, "We have known **CAPE Systems** for many years and share many common customers. We believe that a more automated interface between **CAPE's** palletization functions, **WEBcnx**, and Impact CAD, will be welcomed by our mutual customers, and can only serve to enhance the inherent functionality of both our products."

Peter Ayling, **CAPE's** head of International Marketing, stated, "Like **ARDEN SOFTWARE**, we are convinced that our integrated suite of **CAPE's** pallet optimization software connected to **ARDEN SOFTWARE's** Design Workflow Management System, **WEBcnx** and their Impact range of CAD software will result in a powerful set of tools for our combined customers, particularly those in the global packaging industry."

### **About ARDEN SOFTWARE**

As a leading provider of CAD solutions to the worldwide packaging industry since 1988, **ARDEN SOFTWARE** has gained a reputation for developing open and innovative solutions that bring value to companies large and small. The company sees the addition of **WEBcnx**, to the Impact range of CAD solutions, as central to its future business expansion plans.
