

PRESS RELEASE

FOR IMMEDIATE RELEASE

*****CAPE SYSTEMS TO EXHIBIT AT THE 2007 PROMAT EXHIBITION*****

PREMIER MATERIALS HANDLING & LOGISTICS SHOW

South Plainfield, New Jersey (December 6, 2006) – CAPE Systems Group, Inc., a leading provider of software technology for packaging design, pallet optimization, RFID Asset Tracking, inventory and warehouse management, supply chain execution and order fulfilment, today announced that it will be showcasing its order fulfilment, light directed picking systems and other state-of-the-art products at the ProMat 2007 Exposition at McCormick Place in Chicago from January 8 to January 11, 2007. Among the products on display will be **CAPE**'s very distinctive product suite from product design and packaging, to palletizing and truck optimization, robotic pallet building and all the way through order picking and warehouse management. **CAPE** will be at Booth #4856.

ProMat 2007 is the nation's largest exhibition of material handling in logistics equipment, systems and technologies sponsored by the Material Handling Industry of America. The four-day event will be the most comprehensive showcase of these systems and technologies in the United States in 2007.

According to the show's organizers, ProMat 2007 is designed to offer productivity solutions and information through the products and services of the 700 material handling and logistics equipment and service providers expected to exhibit on the 300,000-square-foot show floor. Those exhibitors offer material handling and logistics solutions for moving, storing controlling, and protecting materials and products.

Dave Sasson, COO of **CAPE**, commented, "This is a premier show for the material handling and logistics industries and we will be pleased to exhibit our state-of-the art product set at this prestigious event."

About CAPE Systems
